

Carboy bottle

The main body of the carboy is made of PC material, which can withstand high temperature processing and low temperature freezing storage, and is an ideal choice for storing sterile liquids, dispensing solutions and culture media.

Features

- The bottle body is produced by ISB one step molding process, which has better appearance and overall sealing.
- A variety of liquid conversion caps and sealing caps can be selected. Handle design for easy access.
- Endurance temperature-80~125 degrees.
- Standard size of barrel mouth, which can realize seamless replacement of most liquid storage barrels.
- The carboy body has a molded scale, which is convenient for liquid distribution and use.
- Slim mouth design, the carboy body has high transparency, easy to observe the solution state. Autoclavable.

Large mouth tee cover inner piping configuration Liquid inlet: 200mm IN 3/8 OD 5/8 Platinum vulcanized silicone Tubing, Liquid end: 500mm IN 3/8 OD 5/8
