

Face Mask and Filter Sterilizer

Protecting you for life's best moments.

NORTH AMERICA FACE MASK AND FILTER STERILIZER TDS

GVS-RPB.COM

The GVS Face Mask and Filter Sterilizer is an efficient solution for sterilizing N31000 Segre N99 masks, as well as P100 filters for the Eclipse and Integra respirators. An LED lamp inside the sterilizer uses UVC light to kill viruses in minutes, without damaging the mask or filter.

Application ranges

Use for travel, healthcare, personal at home use, and work.

Compatible with

Can be used to sterilize GVS Segre N99 mask and Eclipse and Integra P100 filters, as well as other small objects.

Part number

Face mask sterilizer (20 per box) **SPM900**

Features

- UVC lamp rays with a wavelength of 253.7nm sterilize a mask or filter, removing 99.9% of contaminants in just ten minutes per side.
- The aromatherapy option allows the user to add a pleasant scent to their mask.
- The sterilizer doesn't use heat, liquids, or chemicals to sanitize masks - just UV Light.

Level of protection

Removes 99.9% of contaminants.
