

RPB® NOVA 3® RESPIRATOR

Unrivalled comfort.

The RPB Nova 3 revolutionizes the abrasive blasting experience with the world's most comfortable blasting respirator. With breakthrough technology and comfort, the Nova 3 has been designed around the operator's needs to advance their safety and productivity.

Visibility has been at the forefront of the Nova 3 design process. With the unique cassette lens system, you can experience an optically clear field of view at all times. The superior operating window optimizes peripheral vision and allows for 30% more downward vision than other respirators on the market.

The ratchet padding system provides a customizable fit and molded side pads absorb sound, protecting against hearing loss. Its unique helmet design distributes weight evenly across your head and shoulders, keeping the center of gravity low, eliminating top heaviness, and relieving you from aches and strains on your neck.

The Nova 3 offers superior protection in all key areas:

Protecting you for life's best moments.

Features & Benefits

Optional L4 Light. ■

Allen key located inside the headtop is the only tool required for all part replacements.

One click inner lens replacement.

A patented system* allows you to easily replace your inner safety lens. ■

Widened perspective provides optimal downward and peripheral field of view. ■

Tear-off lens system to ensure you always have a clear visor when operating. Cassette lens system available to further increase productivity. Cassette lens is five tear-offs and one outer lens fused together. All tear-off lenses have pre-folded tabs. ■

Removable visor for efficient lens replacement. ■

■ Streamlined air deflection system distributes air across your breathe zone and across the lens to prevent fogging.

■ Tough helmet shell, manufactured from robust engineering grade nylon offers ANSI Z89.1 (EN397) certified hard hat protection.

■ Ratchet system and adjustable molded side pads to help create a secure, customized fit.

■ Large glove sized latch that is easy to locate and use.

■ Bellow seal creates a complete barrier to dust and particulates.

■ In-helmet communication/radio compatible (if required).

■ Cape is securely attached with 8 snap fasteners.

*US Patent No. US 8,179,913 B2.

⚠️ WARNING PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
 - 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from rpbsafety.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
 - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
