

RPB® T-LINK® RESPIRATOR

Unrivalled respiratory protection.

The RPB T-Link has been designed to move with you, not against you. With your comfort and job our main focus, the T-Link transforms how you work, advancing your safety and increasing productivity.

Your ability to see has been at the forefront of our design process, with the T-Link boasting a large visor that enables you to easily connect with your surroundings. This is further supported by our Tychem® hood that securely attaches to the headtop, ensuring your downward and peripheral vision is never compromised. The soft breathable inner-bib and extra tuck-in collar ensures maximized comfort and helps to direct air down your body for cooling.

Fitted with a padded headliner and head suspension system, the headtop's weight is evenly distributed to enhance your experience of comfort, relieving you of aches and strains on your neck. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on the task at hand.

The T-Link offers superior protection in all key areas:

Respiratory

Eye

Hearing

Face/Neck

Hard Hat/
Bump Cap

Protecting you for life's best moments.

Features & Benefits

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference. ■

Padded headliner supports weight distribution while relieving you of the effects of any pressure points. ■
 The optional Comfort-Link™ system provides extra comfort and stability providing optimum weight distribution.

Head suspension system can be adjusted for height and distance from the visor to support all head sizes and shapes. ■

Large viewing window for exceptional downward and peripheral vision. ■
 Optically clear peel-off and cassette lenses available.

Optional ANSI Z87 approved safety lens (EN166). ■

Fixed lens frame ensures the lens will never hit your nose or optical aids being used. ■

■ Option of bump cap or ANSI Z89.1 hard hat protection (EN397).

■ Adjustable ratchet system ensures a customized fit that supports movement, while increasing comfort and productivity.

■ Breathing tube easily attaches to respirator and swivels to eliminate tangles. Centralized location ensures even weight distribution.

■ Two cape materials available: DuPont™ Tychem® 2000, DuPont™ Tychem® 4000.

■ Soft, breathable inner-bib and long tuck-in collar for extra protection and upper body air flow.

All parts can be purchased individually for ease of maintenance and servicing.

WARNING PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
 - 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from rpb.com/safety) for complete specifications, including approvals, standards, and regulations to which the product conforms.
 - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
